Usage.

- Use the logo with the “Continuous Security” tagline whenever possible. If the tagline is too small to read, use a logo without the tagline – **DO NOT remove the tagline manually**.

- Always maximize the size of the logo by using either the horizontal or vertical logo.

- If in doubt, use the horizontal logo with the “Continuous Security” tagline.

- Use the full-color logo on a white or light colored background where the Qualys wordmark is clearly legible. **If the background is too dark, use the one-color logo – DO NOT use any color other than white (supplied) or black.**

- Use the CMYK logos for anything being printed, and the RGB logos for anything going on screen.
